

BRIG
RIGID INTELLIGENT BOATS

Falcon 380

Brig Falcon 380

The Falcon 380 is Brig's latest addition to the Falcon line-up. This boat is equipped with a deep V hull and bigger buoyancy tube diameter to increase maximum payload and maximum HP engines for this class of boats. It is designed to spread the Falcon line even more, so you can choose the preferred size to fit your yacht or to have an additional space for passengers or stowage.

SPECIFICATIONS

Boat Length	Beam Width	Boat Weight	Max HP	Engine Shaft	Max Persons	Max Payload
