ALLOY BOATS

Images may show optional upgrades.

Exceptional in all sea conditions. The XP696 is the bigger brother of the XP646 with 400mm more cockpit for those amongst us who need a bigger boat they can still manage on their own.

An extra wide 2.50m beam creates a super stable platform for whatever you choose to use your new Southern for – a hard-core fish/dive weekend with your mates, day trips to the islands with the family or a weekend away in a secluded bay.

With 200 litres of fuel underfloor and Southern's legendary soft ride you can venture further in comfort knowing the trip back will be as enjoyable, whatever the weather.
